Hi Debbie,

Thank you for the call today. Nice to meet you! What we have to offer for UIC graphics is a bit limited. I presume you want primarily info and graphics on Class II UIC Wells, the class of wells that California regulates. Below are links to several EPA websites with general information on the UIC program and Class II UIC Wells. I hope this is helpful to you. Please let us know if you have questions or need more information. Thanks.

Hi Debbie –

I am out of the office but I think one of the folks I have copied here can help. Thanks

Mike

Hello Mr. Montgomery,

My name is Debbie Maldonado and left you a message on your phone today.

I was referred to you by Marilu Habel, from DOC via my supervisor Teresa Schilling PAO officer at DOC to contact you in regards to well injection information.

We're looking for graphics to illustrate underground injection wells.

Our understanding is the US EPA has put together related training information on injection wells that you may have and hopefully we can use.

You can contact my Supervisor with the information or questions you may have. Her name and email below

Any help would be greatly appreciated.

Thank You... Debbie

Teresa Schilling DOC/ PAO officer
